

Eagle Pharmaceuticals, Inc. Reports Second Quarter 2018 Results

August 7, 2018

-- Q2 2018 net income was \$0.18 per basic and \$0.17 per diluted share and adjusted non-GAAP net income of \$0.99 per basic and \$0.95 per diluted share --

Eagle Pharmaceuticals, Inc. ("Eagle" or "the Company") (Nasdaq:EGRX) today announced its financial results for the three and six months ended June 30, 2018. Highlights of and subsequent to the second quarter of 2018 include:

Business and Recent Highlights:

- EHS clinical trial for RYANODEX[®] will be conducted August 20 24, 2018 during the Hajj pilgrimage;
- Eagle received a favorable decision by the U.S. District Court for the District of Columbia granting seven years of orphan drug exclusivity (ODE) in the U.S., for BENDEKA[™] (bendamustine hydrochloride injection, or bendamustine HCI) until December 2022 and denying the Food and Drug Administration's (FDA's) attempt to preemptively exclude TREANDA generics from the scope of exclusivity;
- Data from the fulvestrant clinical trial expected in the fourth quarter of 2018;
- Advancing discussions with U.S. military to formalize clinical and regulatory plans for RYANODEX in the treatment of nerve agent exposure;
- United States Patent and Trademark Office issued patent number 10,010,533 for BENDEKA. The USPTO has now issued or allowed a total of 15 U.S. patents in the BENDEKA family of patents expiring from 2021 to 2033;
- Eagle was first to file a vasopressin 1ml injection ANDA, which was accepted for filing by the FDA in April; and
- A second source manufacturing facility for Eagle's bendamustine products has been approved by the FDA.

Financial Highlights:

Second quarter 2018

- Total revenue for the second quarter of 2018 was \$59.3 million, compared to \$50.1 million in the second quarter of 2017;
- Eagle launched bendamustine hydrochloride 500ml solution ("Big Bag") on May 15, 2018 and Big Bag product sales were \$8.1 million in the second quarter of 2018;
- Q2 2018 Ryanodex product sales were \$7.2 million, up 38% compared to Q2 2017;
- Q2 2018 net income was \$2.7 million, or \$0.18 per basic and \$0.17 per diluted share, compared to net income of \$4.5 million, or \$0.30 per basic and \$0.28 per diluted share in Q2 2017;
- Q2 2018 Adjusted Non-GAAP net income was \$14.7 million, or \$0.99 per basic and \$0.95 per diluted share, compared to Adjusted Non-GAAP net income of \$7.9 million, or \$0.52 per basic and \$0.49 per diluted share in Q2 2017;
- During Q2 2018, Eagle purchased an additional \$3.5 million of Eagle common stock as part of its share buyback program; since August 2016, Eagle has repurchased \$91.3 million of Eagle common stock; and
- Cash and cash equivalents were \$100.2 million, accounts receivable was \$69.4 million, and debt was \$47.5 million as of June 30, 2018.
- Reiterating 2018 Expense Guidance:
 - R&D expense is expected to be in the range of \$46 \$50 million (\$40 \$44 million on a non-GAAP basis)
 - SG&A expense is expected to be in the range of \$61 \$64 million (\$44 \$47 million on a non-GAAP basis)

"We believe 2018 will be another solid year of growth for Eagle, with continued near-term value creation, and strong upside potential with our advanced pipeline that could meaningfully contribute to the long-term value of the business. This includes protecting the value and longevity of our existing bendamustine franchise where we recently prevailed in litigation and received orphan drug exclusivity until December 2022 for BENDEKA, as well as having recently launched "Big Bag", our 500 mL liquid form bendamustine solution that does not require reconstitution, filling an important need in the market for a lower-cost alternative. Our RYANODEX portfolio is advancing as we take advantage of product and label expansion opportunities for Exertional Heat Stroke and evaluate the neurological impact of nerve agent exposure in collaboration with the U.S. military," stated Scott Tarriff, Chief Executive Officer of Eagle Pharmaceuticals.

"As a result of the favorable court ruling requiring the FDA to grant BENDEKA orphan drug exclusivity, the FDA will not be able to approve any drug applications referencing BENDEKA until the ODE expires in December 2022. The court also denied the FDA's attempt to preemptively exclude TREANDA generics from the scope of BENDEKA's ODE. We continue to believe that an appropriate application of ODE would first allow generic TREANDA entrants in December 2022, rather than November 2019 and intend to vigorously pursue our position with the FDA and through additional litigation, if necessary," added Tarriff.

"We look forward to completing our clinical study for RYANODEX for EHS scheduled during the Hajj Pilgrimage, to support the data we have previously collected. We anticipate reporting results for our fulvestrant study later this year, along with progress on other products under development. We look forward to sharing our continued progress to create value for patients and shareholders," concluded Tarriff.

Second Quarter 2018 Financial Results

Total revenue for the three months ended June 30, 2018 was \$59.3 million, as compared to \$50.1 million for the three months ended June 30, 2017. Royalty revenue was \$36.3 million, compared to \$37.4 million in the second quarter of 2017. BENDEKA royalties were \$34.7 million, compared to \$35.1 million in the second quarter of 2017. A summary of total revenue is outlined below:

	Three Months Ended June 30,								
		2018		2017					
	(unau	dited)							
Revenue (in thousands):									
Product sales	\$	23,041	\$	12,704					
Royalty revenue		36,255		37,404					
License and other income		-		-					
Total revenue		59,296		50,108					

Gross margin was 69% in the second quarter of 2018, as compared to 72% in the second quarter of 2017. The gross margin on Big Bag was 68%, reflecting royalty obligations to our partners as well as cost of goods sold.

Research and development expenses increased to \$15.3 million for the second quarter of 2018, compared to \$6.7 million in the second quarter of 2017, largely due to external clinical costs associated with the fulvestrant clinical study. Excluding stock-based compensation and other non-cash and non-recurring items, R&D expense during the second quarter of 2018 was \$13.4 million.

SG&A expenses decreased to \$16.0 million in the second quarter of 2018 compared to \$23.3 million in the second quarter of 2017. The decrease was due to the expiration of the Spectrum co-promotion agreement at the end of June 2017, as well as a reduction in marketing expenses. Excluding stock-based compensation and other non-cash and non-recurring items, second quarter 2018 SG&A expense was \$11.7 million.

Net income for the second quarter of 2018 was \$2.7 million, or \$0.18 per basic and \$0.17 per diluted share, compared to net income of \$4.5 million, or \$0.30 per basic and \$0.28 per diluted share in the three months ended June 30, 2017, due to the factors discussed above.

Adjusted Non-GAAP net income for the second quarter of 2018 was \$14.7 million, or \$0.99 per basic and \$0.95 per diluted share, compared to Adjusted Non-GAAP net income of \$7.9 million or \$0.52 per basic and \$0.49 per diluted share in the second quarter of 2017. For a full reconciliation of Adjusted Non-GAAP net income to the most comparable GAAP financial measures, please see the tables at the end of this press release.
