**For Immediate Release****Eagle Pharmaceuticals Receives 180 Days of Marketing Exclusivity for Recently Approved Vasopressin**

WOODCLIFF LAKE, N.J. — December 29, 2021 — Eagle Pharmaceuticals, Inc. (Nasdaq: EGRX) (“Eagle” or the “Company”) today announced that the U.S. Food and Drug Administration has determined that the Company has maintained its 180 days of marketing exclusivity for its recently approved abbreviated new drug application (“ANDA”) for vasopressin. In August, the U.S. District Court for the District of Delaware held that Eagle’s proposed vasopressin product does not infringe any of the patents Par Pharmaceutical, Inc. et al. asserted against the Company. An appeal of that decision remains pending.

“We are delighted that we have maintained our 180 days of marketing exclusivity for vasopressin, a product that we believe will offer an important A-rated therapeutic equivalent product to Vasopressin. 2022 will be an exciting period for us with our upcoming launch of vasopressin, as well as our launch of PEMFEXY™, beginning on February 1, 2022,” stated Scott Tarriff, President and Chief Executive Officer of Eagle.
