WOODCLIFF LAKE, NJ—March 7, 2022—Eagle Pharmaceuticals, Inc. (Nasdaq: EGRX) ("Eagle" or the "Company") today announced financial results for the three and twelve months ended December 31, 2021.

Business and Recent Highlights:

Announced the commercial availability of its novel product, PEMFEXYTM (pemetrexed for injection), a branded alternative to ALIMTA[®]. PEMFEXY is a ready-to-use liquid with a unique J-code and is approved in the United States to treat nonsquamous non-small cell lung cancer and mesothelioma. Eagle received approval from the U.S. Food and Drug Administration ("FDA") in February 2020 of its new drug application ("NDA") for PEMFEXY, following the settlement agreement of patent litigation with Eli Lilly and Company in December 2019. The agreement provided for a release of all claims by the parties and allows for an initial entry of PEMFEXY into the market (equivalent to approximately a three-week supply of ALIMTA utilization) on February 1, 2022, and a subsequent uncapped entry on April 1, 2022. The ALIMTA U.S. market totaled \$1.2 billion for the 12 months ended December 31, 2021, as reported by Eli Lilly and Company.

¹ The Company's expectations with respect to the first quarter of 2022 are based on its estimates and assumptions as of March 7, 2022 and are subject to substantial uncertainty. The Company's first quarter of 2022 is ongoing and not complete, and the Company's expectations with respect to revenues, earnings per share and adjusted non-GAAP earnings per share for the first quarter of 2022 are estimates. Actual revenue, earnings per share and adjusted non-GAAP earnings per share for the Company's first quarter of 2022 are subject to completion of the quarter as well as financial closing procedures for the period, and the actual and reported financial results for the Company's first quarter of 2022 may materially differ. As such, the Company's expectations with respect to the first quarter of 2022 are inherently unpredictable and actual results and outcomes could differ materially for a variety of reasons, including the factors discussed below under "Forward-Looking Statements."

^{*} Adjusted non-GAAP net income, adjusted non-GAAP earnings per share, adjusted non-GAAP R&D expense and adjusted non-GAAP SG&A expense are non-GAAP financial measures. For descriptions and reconciliations of these non-GAAP financial measures to their most comparable GAAP financial measures, please see below and the tables at the end of this press release.

- · Commenced shipment of vasopressin on January 18, 2022 with 180 days of marketing exclusivity. Vasopressin, an A-rated generic alternative to Vasostrict[®], is indicated for use to increase blood pressure in adults with vasodilatory shock (e.g., post-cardiotomy or sepsis) who remain hypotensive despite fluids and catecholamines. U.S. sales of Vasostrict totaled \$901.7 million for the 12 months ended December 31, 2021, as reported by Endo International plc.
- AOP Orphan Pharmaceuticals GmbH, Member of the AOP Health Group, ("AOP Health"), with whom Eagle entered into a licensing agreement in August 2021, has engaged with the FDA to obtain alignment on the content and format of the pre-clinical and clinical data required to support an NDA seeking approval of Landiolol, a novel therapeutic, for the short-term reduction of ventricular rate in patients with supraventricular tachycardia, including atrial fibrillation and atrial flutter. Based on the FDA's responses to AOP Health's communications, Eagle remains on track to support AOP Health's NDA filing for Landiolol in the second quarter of 2022.

Financial Highlights

Fourth Quarter 2021

- Total revenue for Q4 2021 was \$42.3 million, compared to \$49.9 million in Q4 2020, primarily reflecting lower product sales of BELRAPZO and RYANODEX and lower royalty revenue of BENDEKA, partially offset by higher product sales of TREAKISYM.
- Q4 2021 net loss was \$6.2 million, or \$(0.48) per basic and diluted share, compared to net income of \$8.1 million, or \$0.62 per basic and \$0.60 per diluted share, in Q4 2020.
- Q4 2021 adjusted non-GAAP net income* was \$11.2 million, or \$0.87 per basic and \$0.85 per diluted share, compared to adjusted non-GAAP net income* of \$12.8 million, or \$0.98 per basic and \$0.96 per diluted share, in Q4 2020.
- · Cash and cash equivalents were \$97.7 million, net accounts receivable was \$41.1 million, and debt was \$26.0 million as of December 31, 2021.

Full Year 2021

- Total revenue for the 12 months ended December 31, 2021 was \$171.5 million, compared to \$187.8 million in 2020. 2020 included a \$5.0 million milestone payment from SymBio Pharmaceuticals Limited for regulatory approval of TREAKISYM ready-to-dilute ("RTD") (250 ml) liquid bendamustine formulation.
- · Net loss for the 12 months ended December 31, 2021 was \$8.6 million, or \$(0.66) per basic and diluted share, compared to net income of \$12.0 million, or \$0.89 per basic and \$0.87 per diluted share, in 2020.

Page 3: Eagle Pharmaceuticals Reports Fourth Quarter 2021 Results

- · Adjusted non-GAAP net income* for the 12 months ended December 31, 2021 was \$34.4 million, or \$2.64 per basic and \$2.59 per diluted share, compared to \$48.7 million, or \$3.62 per basic and \$3.54 per diluted share, in 2020.
- · From August 2016 through December 31, 2021, Eagle has repurchased \$228.1 million of its common stock.

"With two important launches in early 2022, Eagle is off to a great start. The initial impressive revenue generated from vasopressin and PEMFEXY, each with significant periods of exclusivity, together with our royalties from bendamustine sales in Japan, position us to more than double our earnings this year. Based on early 2022 trends, we believe that our Q1 2022 earnings per share should approximate \$4.00. Our pipeline is advancing as expected, and our balance sheet remains healthy. The period ahead will be exciting for us as we plan to deploy our cash to strengthen our product offerings and grow the company," stated Scott Tarriff, President and Chief Executive Officer of Eagle Pharmaceuticals.

Fourth Quarter 2021 Financial Results

Total revenue for the three months ended December 31, 2021 was \$42.3 million, as compared to \$49.9 million for the three months ended December 31, 2020. A summary of total revenue is outlined below:

	Three Months En	ded December 31,
	2021	2020
	(unaudited)	(unaudited)
Revenue (in thousands):		
Product sales, net	\$ 16,158	\$ 22,936
Royalty revenue	26,162	26,980
Total revenue	\$ 42,320	\$ 49,916

Q4 2021 BELRAPZO product sales were \$5.5 million, compared to \$10.2 million in Q4 2020.

Q4 2021 RYANODEX[®] product sales were \$6.1 million, compared to \$7.9 million in Q4 2020.

Royalty revenue was \$26.2 million in the fourth quarter of 2021, compared to \$27.0 million in the fourth quarter of 2020. BENDEKA royalties were \$24.2 million in the fourth quarter of 2021, compared to \$27.0 million in the fourth quarter of 2020.

Gross margin was 71% during the fourth quarter of 2021, as compared to 75% in the fourth quarter of 2020. The decrease in gross margin for the fourth quarter of 2021 was driven by revenue mix.

R&D expense was \$3.8 million for the fourth quarter of 2021, compared to \$9.4 million for the fourth quarter of 2020. The decrease was primarily due to the non-recurrence of development cost on vasopressin and lower spend on RYANODEX related projects. Excluding stock-based compensation and other non-cash and non-recurring items, adjusted non-GAAP R&D expense* during the fourth quarter of 2021 was \$2.6 million.

SG&A expenses in the fourth quarter of 2021 totaled \$20.3 million compared to \$18.2 million in the fourth quarter of 2020. This increase was primarily related to employee related costs and consulting costs partially offset by a decrease in stock-based compensation expense. Excluding stock-based compensation and other non-cash and non-recurring items, fourth quarter 2021 adjusted non-GAAP SG&A expense* was \$14.6 million.

Page 4: Eagle Pharmaceuticals Reports Fourth Quarter 2021 Results

Net loss for the fourth quarter of 2021 was \$6.2 million, or \$(0.48) per basic and diluted share, compared to net income of \$8.1 million, or \$0.62 per basic and \$0.60 per diluted share, in the fourth quarter of 2020, as a result of the factors discussed above.

Adjusted non-GAAP net income* for the fourth quarter of 2021 was \$11.2 million, or \$0.87 per basic and \$0.85 per diluted share, compared to adjusted non-GAAP net income* of \$12.8 million or \$0.98 per basic and \$0.96 per diluted share in the fourth quarter of 2020.

Full Year 2021 Financial Results

Total revenue for the year ended December 31, 2021 was \$171.5 million, as compared to \$187.8 million for the year ended December 31, 2020. A summary of total revenue is outlined below:

	Twelve Mo	Twelve Months Ended December 3				
	2021	2021				
Revenue (in thousands):						
Product sales, net	\$	55,023	\$	72,323		
Royalty revenue	1	6,523		110,479		
License and other revenue		_		5,000		
Total revenue	\$ 1	1,546	\$	187,802		

Product sales decreased by \$7.3 million in the year ended December 31, 2021, primarily driven by decreases in product sales of Bendeka by \$4.3 million, coupled with decreases in Belrapzo product sales of \$3.8 million, due to price decreases and Ryanodex product sales by \$3.0 million, due to volume decreases. The decreased sales were partially offset by increases in product sales of \$3.9 million for TREAKISYM.

Gross margin was 75% in 2021, as compared to 76% in 2020. The decrease in gross margin in 2021 was driven by revenue mix.

R&D expense increased to \$51.3 million in 2021, compared to \$30.8 million in 2020, primarily reflecting a \$10.0 million upfront payment related to our license agreement with Combioxin SA for CAL02, a \$5.0 million upfront payment related to our licensing agreement with AOP Orphan for Landiolol, and increases of \$2.3 million in development costs for vasopressin, \$2.1 million in employee related costs, and \$1.6 million related to PEMFEXY launch preparedness and regulatory costs. Excluding stock-based compensation and other non-cash and non-recurring items, adjusted non-GAAP R&D expense* in 2021 was \$32.5 million.

SG&A expenses decreased by \$3.3 million to \$75.3 million in 2021, compared to \$78.6 million in 2020. The decrease primarily reflects lower stock-compensation expense and the non-recurrence of expense related to Tyme Technologies, Inc. ("Tyme"), partially offset by increases in external legal fees and employee related costs. Excluding stock-based compensation and other non-cash and non-recurring items, adjusted non-GAAP SG&A expense* in 2021 was \$54.9 million.

Non-GAAP Financial Performance Measures

In addition to financial information prepared in accordance with U.S. GAAP, this press release also contains adjusted non-GAAP net income, adjusted non-GAAP earnings per share attributable to Eagle, adjusted non-GAAP R&D expense and adjusted non-GAAP SG&A expense. The Company believes these measures provide investors and management with supplemental information relating to operating performance and trends that facilitate comparisons between periods and with respect to projected information.

Adjusted non-GAAP net income excludes amortization expense, stock-based compensation expense, depreciation expense, expense of acquired in-process research and development, severance, expense related to collaboration with Tyme, non-cash interest expense, fair value adjustments on equity investment, convertible promissory note related credit losses, fair value adjustments related to derivative instrument, accretion of discount on convertible promissory note and the tax effect of these adjustments.

The Company believes the use of non-GAAP financial measures helps indicate underlying trends in the Company's business and are important in comparing current results with prior period results and understanding projected operating performance. Non-GAAP financial measures provide the Company and its investors with an indication of the Company's baseline performance before items that are considered by the Company not to be reflective of the Company's ongoing results. See the attached reconciliation tables for details of the amounts excluded and included to arrive at certain of the non-GAAP financial measures.

Investors should note that reconciliations of the forward-looking or projected non-GAAP financial measures included in this press release to their most comparable GAAP financial measures cannot be provided because the Company cannot do so without unreasonable efforts due to the unavailability of information needed to calculate the reconciling items and the variability, complexity, and limited visibility of comparable GAAP measures, and the reconciling items that would be excluded from the non-GAAP financial measures in the future. Reconciliations of the components of projected adjusted non-GAAP R&D, SG&A, net income, and earning per share to their most comparable GAAP financial measures is not provided because the quantification of projected GAAP R&D, SG&A, net income and earning per share and the reconciling items between projected GAAP to adjusted non-GAAP R&D, SG&A, net income, and earnings per share cannot be reasonably calculated or predicted at this time without unreasonable efforts. For example, with respect to GAAP net income, the Company is not able to calculate the favorable or unfavorable expenses related to the fair value adjustments on equity investments and derivative instruments primarily due to nature of these transactions. Such unavailable information could be significant such that actual GAAP R&D, SG&A, net income, and earnings per share would vary significantly from projected GAAP and adjustment non-GAAP R&D, SG&A, net income, and earnings per share.

These non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with U.S. GAAP. The Company strongly encourages investors to review its consolidated financial statements and publicly-filed reports in their entirety and cautions investors that the non-GAAP financial measures used by the Company may differ from similar measures used by other companies, even when similar terms are used to identify such measures.
